

Changelog

SGPA3

Automated Process Management System

Changelog Version 2024/238
 Period: 07/30/2024 to 08/05/2024
 Revision 00
 Date: 08/13/2024

Some applications mentioned in this report may not be available in the feature pack in your SGPA 3.0

Thank you for being a SGPA 3.0 user!

We update our system in order to fix bugs, improve performance and add new features to bring a better user experience and contribute to a management with greater quality and efficiency.

Table of Contents

1. SGPA3	4
1.1 Improvements	4
1.1.1 PBI Reports – Cotton Digital Certificate	4
1.2 Bugs.....	5
1.2.1 Maps – Speed	5
1.2.2 PBI Report – FUT Adherence	6

1. SGPA3

1.1 Improvements

1.1.1 PBI Reports – Cotton Digital Certificate

Improvement made to the “Overview” tab of the PBI “Cotton Digital Certificate” Report. As of this version, **Average Productivity** information is available in two units of measurement: **kg/ha** (kilogram per hectare) and **@/ha** (arroba per hectare). The filter for choosing the unit of measurement is available in the upper right-hand corner of the report and will be reflected in the “Average Productivity” card and in the “Number of Modules and Average Productivity” graph.

⚠ The conversion of **kg/ha** values to **@/ha** is done by dividing the **kg/ha** value by 15.

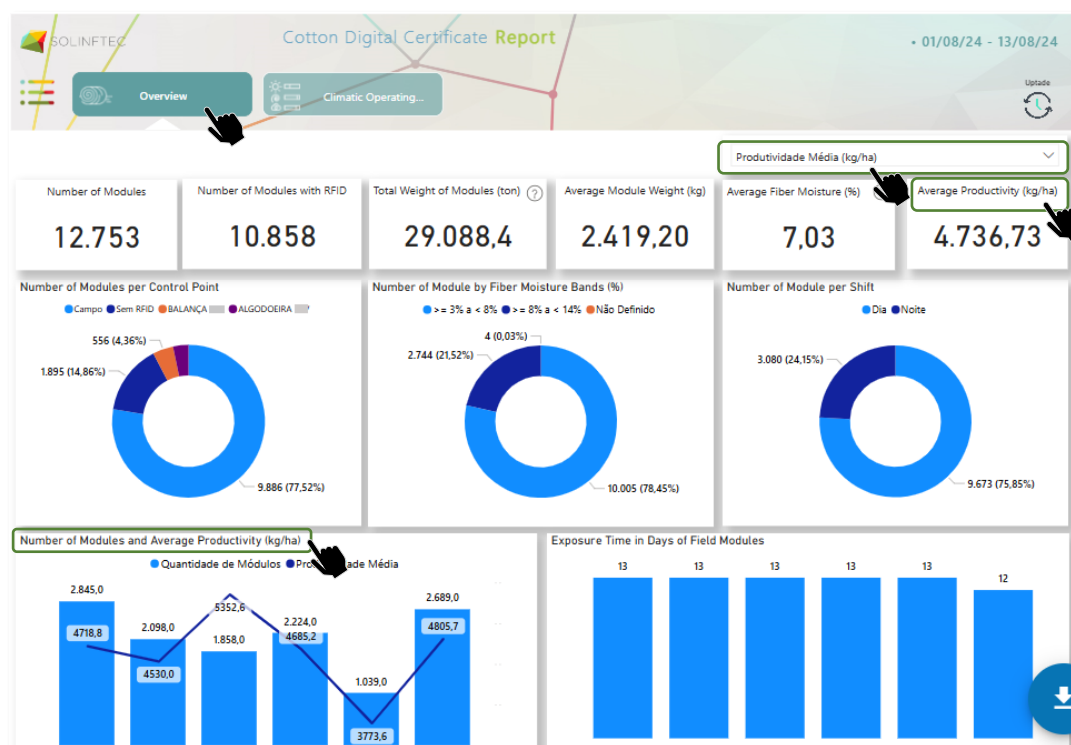

Image 01 – Displaying Average Productivity in “Kg/ha” in the Cotton Digital Certificate report

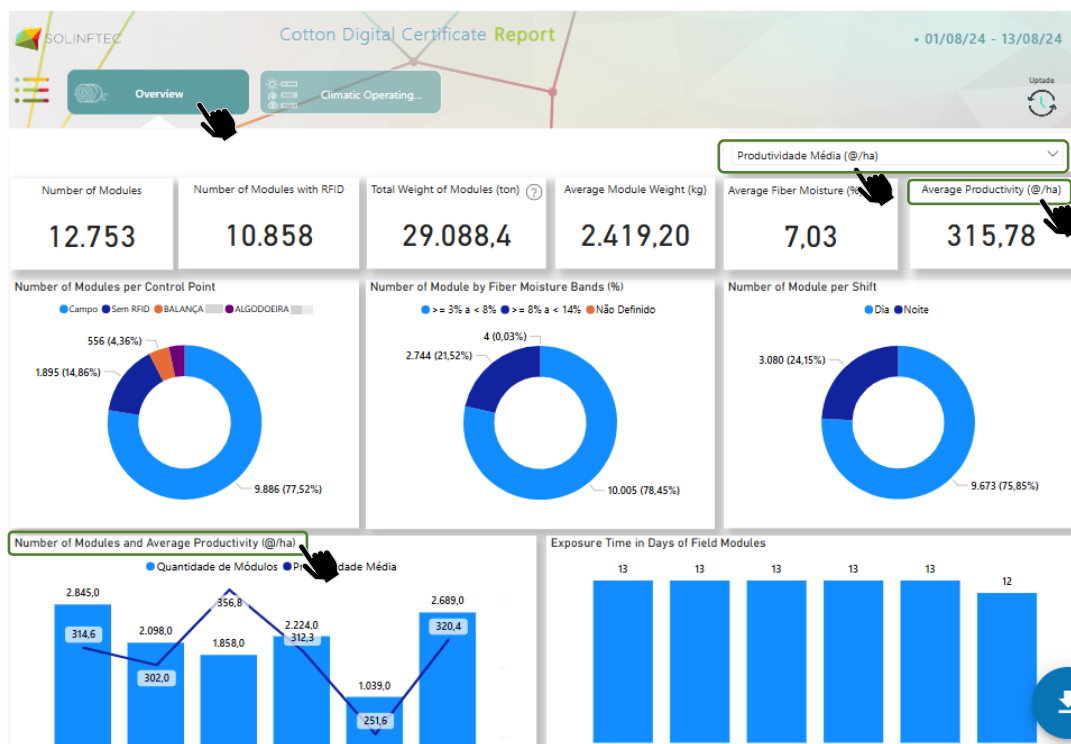

Image 02 – Displaying Average Productivity in “@/ha” in the Cotton Digital Certificate report

Go to Main menu > Reports > PBI > Cotton Digital Certificate > Overview

Available for Environments in the Grains vertical that have the “CDA – Cotton Digital Certificate” solution active.

1.2 Bugs

1.2.1 Maps – Speed

Adjustment made to the “Speed” Map, in order to display with one decimal place in the Legend tracks and in the information message that’s displayed when activating to edit the Legend.

Go to Top menu > Maps > Speed > Legend > Profile > Create new/Edit > Add value > Information message

1.2.2 PBI Report – FUT Adherence

Adjustment made to the PBI Report “FUT Adherence”, from the Sugarcane Vertical, in order to correctly display information related to the Fronts.

Go to Main menu > Reports > PBI > Hauling Tractor Flow > FUT Adherence
