

Changelog

SGPA3

Automated Process Management System

Changelog Version 2024/245
 Period: 09/24/2024 to 09/30/2024
 Revision 00
 Date: 10/08/2024

Some applications mentioned in this report may not be available in the feature pack in your SGPA 3.0

Thank you for being a SGPA 3.0 user!

We update our system in order to fix bugs, improve performance and add new features to bring a better user experience and contribute to a management with greater quality and efficiency.

Table of Contents

1. SGPA3	4
1.1 Improvements	4
1.1.1 Maps – Condition (Perennials).....	4
1.1.2 PBI Report – Sugarcane Benchmark, Harvester and Transshipment.....	6
1.1.3 Tools – Operator File.....	7
1.1.4 Records – Crossing Tables.....	7
1.2 Bugs.....	8
1.2.1 Monitoring – Fields Filter	8
1.2.2 PBI Reports – Operational Variables.....	8

1. SGPA3

1.1 Improvements

1.1.1 Maps – Condition (Perennials)

Improvement made to the **“Condition”** map. As of this version, in the Perennial Vertical environments, when selecting the **Operation** and generating the **Condition** map, the **“Stop Reason”** filter will be displayed, meaning it will be possible to filter only by the **Stops** you want to view on the map.

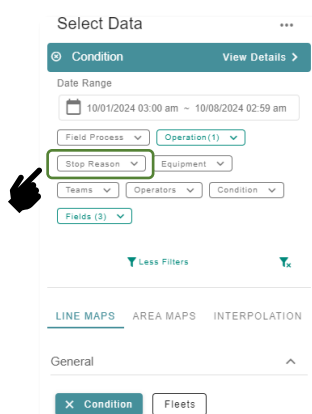

Image 01 – “Stop Reason” Filter

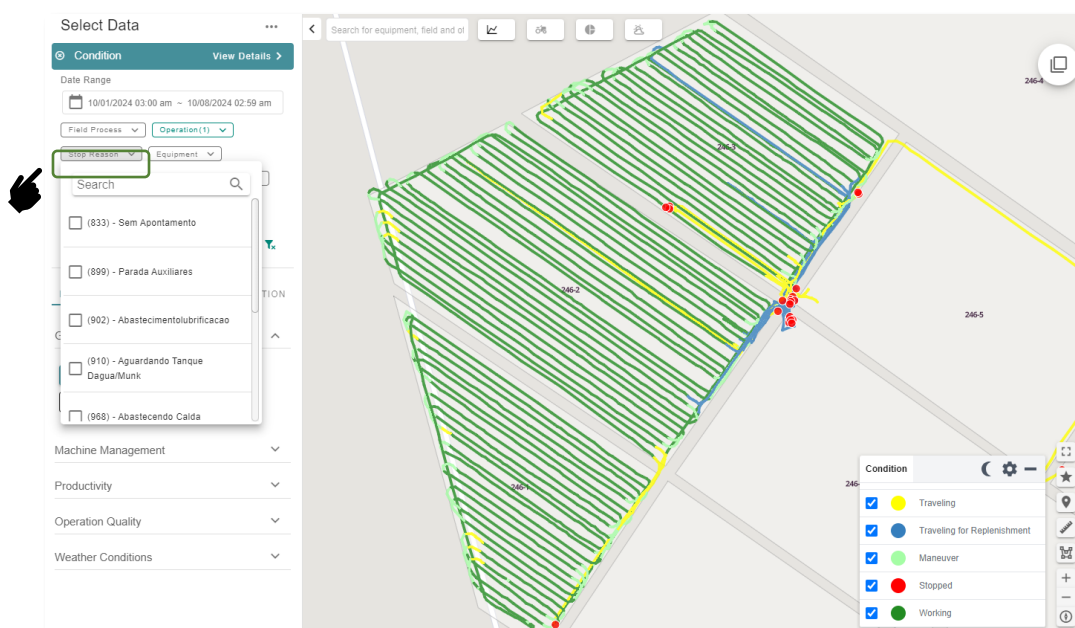

Image 02 – Displaying list of Stop Reasons in “Stop Reason” filter

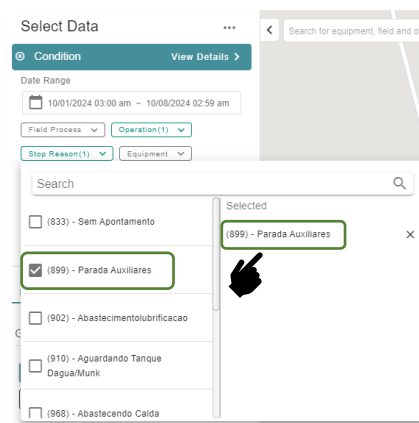

Image 03 – One Stop Reason selected

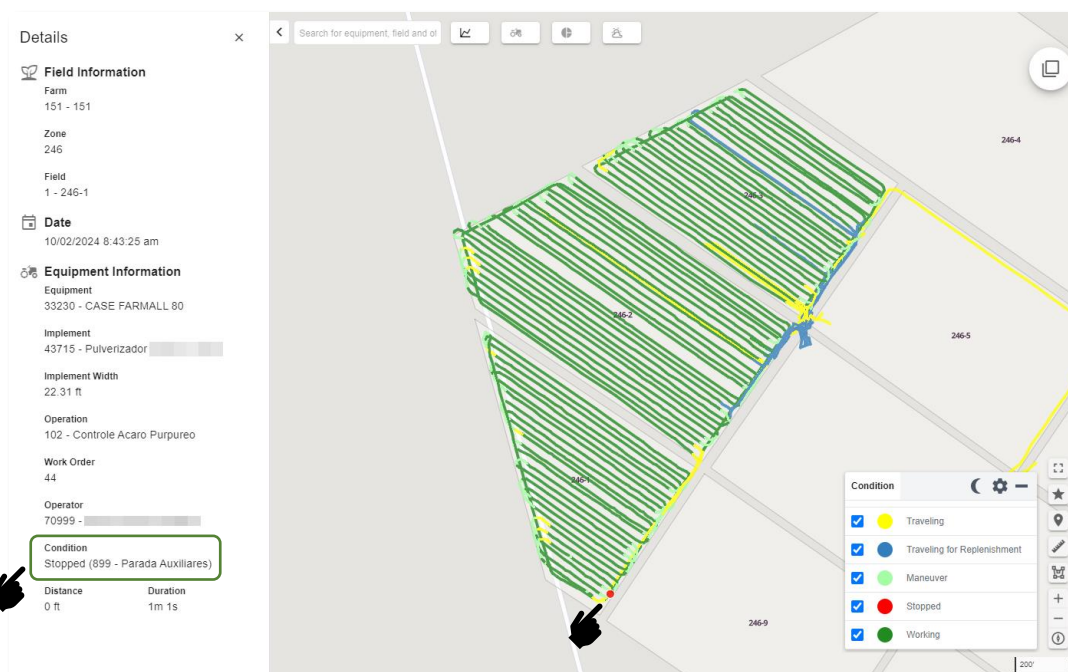

Image 04 – Reason for Stop in Details and display of Stop point on map

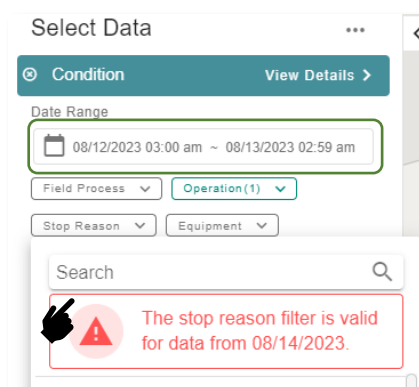

Image 05 – Message informing that the “Stop Reason” filter is valid for data from 08/14/2023

Go to Top Menu > Maps > Line Maps > Condition > Stop Reason Filter

Available for Perennial and Grain Vertical Environments.

1.1.2 PBI Report – Sugarcane Benchmark, Harvester and Transshipment

Improvement made in the PBI Reports “Sugarcane Benchmark”, “Harvester Benchmark” and “Transshipment Benchmark”, of the Sugarcane Vertical, in order to include the option to select the current month in the Date Range Filter.

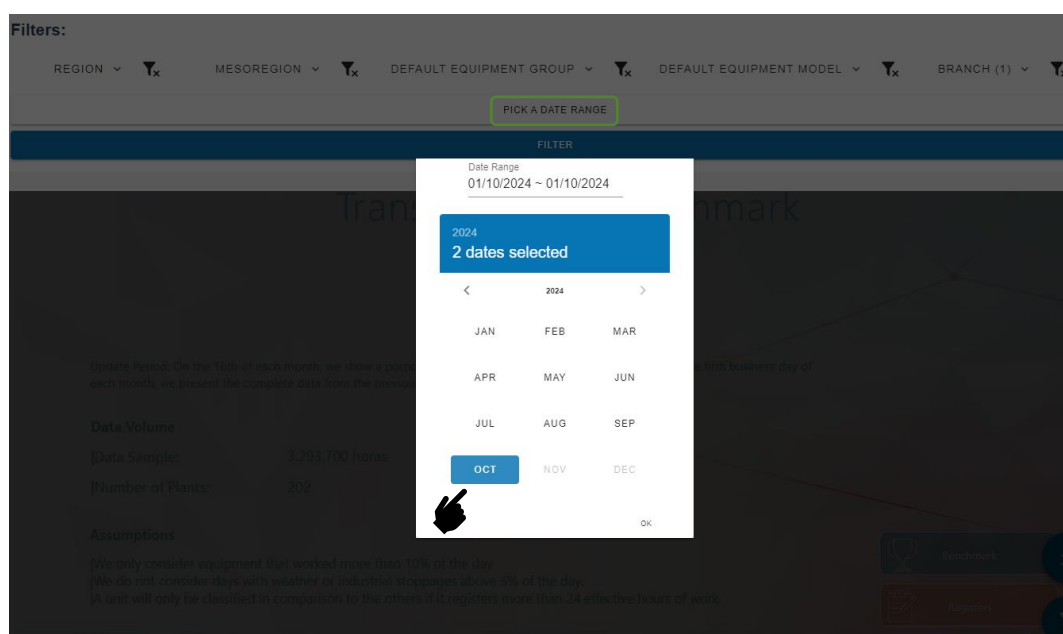

Image 06 – “Transshipment Benchmark” report filtering the current month

Go to Main Menu > Reports > PBI > Benchmark Menu > Sugarcane Benchmark, Harvester Benchmark and Transshipment Benchmark > Filter Choose a Date Range > Select the current month

Available for Sugarcane Vertical Environments that have the “Benchmark” solution active.

1.1.3 Tools – Operator File

Improvement made to the “Operator File” tool. As of this version, it is now possible to export only the data from selected records, i.e. if you click the “Export” button and there are no records selected, the file will not be generated. In addition, it has been implemented to export all selected items instead of only fifty records (previous version).

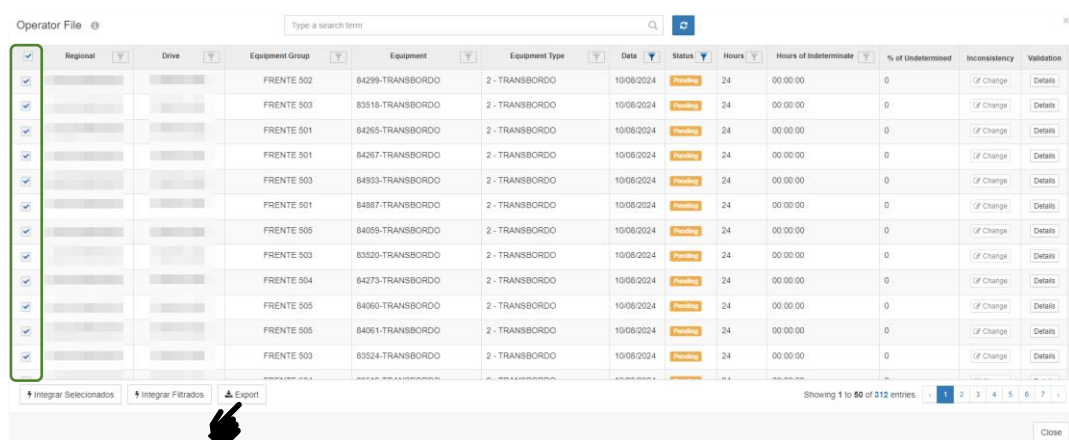

Image 07 – Operator's file with selected records and the Export button

⚠ In cases where there are many records, it may be slow to generate the file.

💬 Go to Main menu > Tools > Operator File > Export

ℹ Available for Sugarcane Vertical Environments.

1.1.4 Records – Crossing Tables

Improvement made to the “Crossing Tables” register to remove the “Monitoring” option in the “Source Information” field and therefore, as of this version, the options available for this field are: Variable Map, Meteorology, Online Monitoring and Can Network.

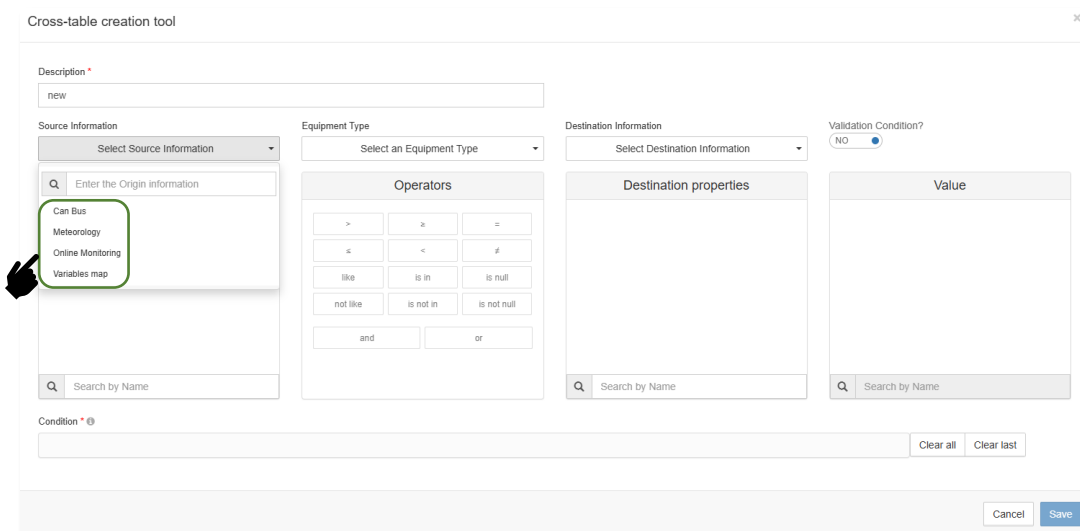

Image 08 – “Crossing Tables” record displaying the Variable Map, Meteorology, Online Monitoring and Can Network options in the “Source Information” field

Go to Main menu > Records > Alerts > Table Crossing Tables > Source Information

1.2 Bugs

1.2.1 Monitoring – Fields Filter

Adjustment made to the “Search fields” filter in **Monitoring** so when entering data into the filter, only fields with links to the data entered the filter will display highlighted on the map.

Go to Top menu > Monitoring > Top menu within the map > Search field "Search by equipment, field or other..." > Search fields > Farm, Zone and Field filters > Fields on the map

1.2.2 PBI Reports – Operational Variables

Adjustment made to the PBI Report “Operational Variables”, from the Sugarcane Vertical, in order to standardize the names of the farms.

Go to Main Menu > Reports > PBI > Operational Hours > Operational Variables

Report
