1.1 Improvements

1.1.1 Maps - Speed

The Legend of the "Speed" map has been improved to display initial values with ".1 ", this way, more assertive values will be presented in relation to percentage.

The image shows two side-by-side screenshots of the 'Speed(mph)' legend interface. The left screenshot shows the 'Default Profile' with a table of speed ranges and their corresponding percentages. The right screenshot shows a 'Custom Profile' where the same ranges are defined, but the initial values are updated to include '.1' (e.g., 1.1, 2.1, 3.1, 4.1, 5.1, 6.1, 7.1). A green box highlights these updated values in both tables. A hand icon points to the bottom row of each table.
