

Changelog

SGPA3

Automated Process Management System

Changelog Version 2023/187
 Period: 05/01/2023 to 05/05/2023
 Revision 00
 Date: 05/15/2023

Some applications mentioned in this report may not be available in the feature pack in your SGPA 3.0

Thank you for being a SGPA 3.0 user!

We update our system in order to fix bugs, improve performance and add new features to bring a better user experience and contribute to management with greater quality and efficiency.

Table of Contents

1. SGPA3	4
1.1 Improvements	4
1.1.1 Telemetry – Failures Settings.....	4
1.2 Bugs.....	5
1.2.1 Monitoring – Draw Measures	5
1.2.2 Login – Recover Password.....	6
1.2.3 Monitoring – Online Command	6

1. SGPA3

1.1 Improvements

1.1.1 Telemetry – Failures Settings

Improvement made in the **Failures Settings** functionality of the **Telemetry** module, in order to be possible to display it by Equipment Type when creating or editing a Failure.

The screenshot shows a 'Failure' form with the following fields and values:

- Failure code ***: 12345678900
- Manufacturer Criticality ***: 2
- Client Criticality ***: Alarm
- Failure description ***: Failure
- Module ***: Transmission1
- Show failure ***: Show
- Equipment type ***: Colhedora, Transbordo, TRATOR DE PNEU LEVE/MAG 100 (all checked)

Image 01 – New Failure

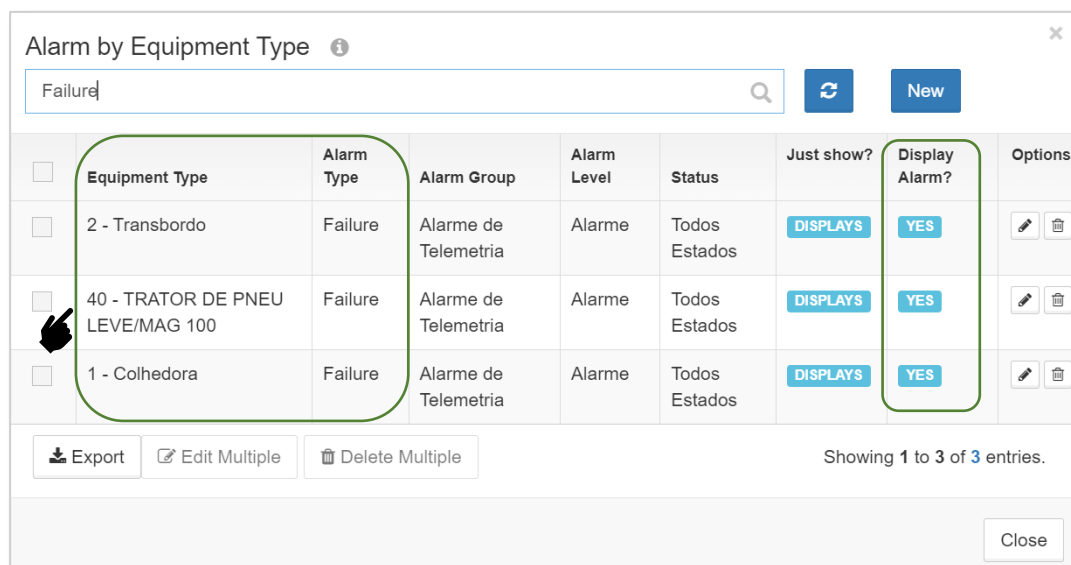

Image 02 – Alarm Registration by Equipment Type

Go to Top Menu > Telemetry > Failures Settings > Create/Edit Failure > Display Failure > Equipment Type and Main Menu > Records > Alarm > Alarm by Equipment Type

Available for Environments of the Sugarcane vertical that have the “Telemetry” solution enabled.

1.2 Bugs

1.2.1 Monitoring – Draw Measures

Correction made in the Draw Measures tool so if the user clicks on **Clear Last**, the lines will be deleted correctly.

Go to Top Menu > Monitoring > Draw Measures

1.2.2 Login – Recover Password

Adjustment made so when the user enters an email to recover the password, the temporary password will be sent to the email.

Go to Solinftec SGPA Login > Forgot your password?

1.2.3 Monitoring – Online Command

Correction made to the Online Command button in the equipment pop-up to be able to insert 6 digits in the **Flow Value** field of the **Flow Note** command.

Go to Top Menu > Monitoring > Equipment > Pop-up > Online Command
