Date: 11/11/2022

Some applications mentioned in this report may not be available in the feature pack in your SGPA 3.0

+55 (18) 3622-2270

Av. Brasília, 2.121 - Edif. New York Tower  
Jardim Nova York - Araçatuba/SP

Thank you for being a SGPA 3.0 user!

We update our system in order to fix bugs, improve performance and add new features to bring a better user experience and contribute to a better quality and efficient management.

## Table of Contents

1.	SGPA.....	4
1.1	Improvements.....	4
1.1.1	PBI Reports – Productivity Monitor .....	4
1.2	Bugs .....	4
1.2.1	Online Command – Export.....	4
1.2.2	Online Command – Update Implement Register.....	4
1.2.3	Meteorology Tag.....	5

## 1. SGPA

### 1.1 Improvements

#### 1.1.1 PBI Reports – Productivity Monitor

Improvement applied to the filters of the PBI Productivity Monitor report of the **Sugarcane** vertical. The filters: **Farm**, **Zone** and **Field** were implemented in order to facilitate the search for specific data.

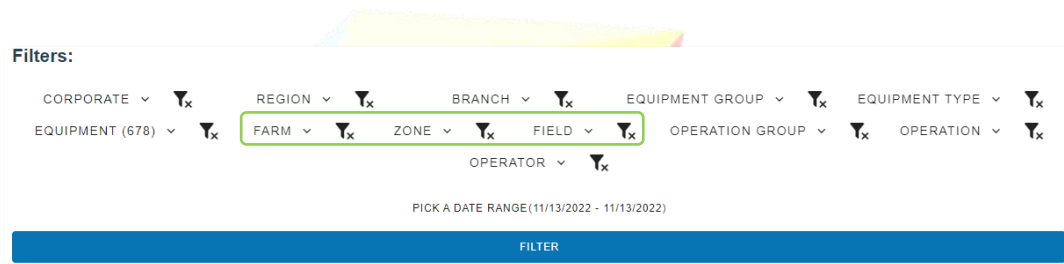

Image 01 – Productivity Monitor report filters

 Available to Customers/Environments of the Sugarcane vertical that have the Yield Monitor module

 Go to Main Menu > Reports > PBI

### 1.2 Bugs

#### 1.2.1 Online Command – Export

Adjustment made to limit the amount of data in the Online Command export. Now it is limited to export the last hundred records.

 Go to Top Shortcut Menu > Online Command

#### 1.2.2 Online Command – Update Implement Register

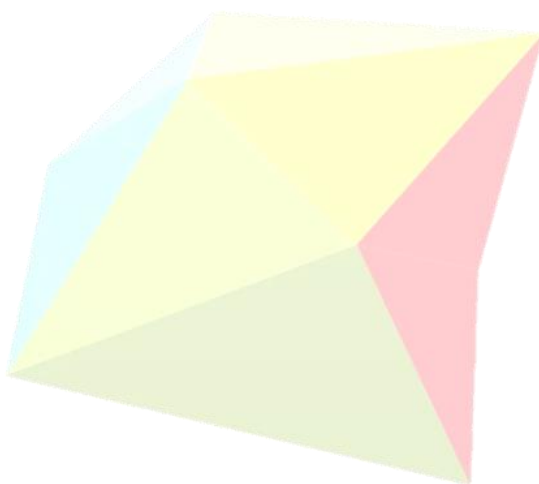

The description of the field “Implement Width” has been changed to “Distance from GPS to Implement” in the Online Command – Update Implement Register.

 Go to Top Shortcut Menu > Online Command

### 1.2.3 Meteorology Tag

Correction applied to the export available in the Meteorology Tag to allow exporting the data correctly.

 Go to Main Menu > Modules > Panel
