Changelog

SGPA3

Automated Process Management System

Some applications mentioned in this report may not be available in the feature pack in your SGPA 3.0

Thank you for being a SGPA 3.0 user!

We update our system in order to fix bugs, improve performance and add new features to bring a better user experience and contribute to a management with greater quality and efficiency.

Table of Contents

1. SGPA3

1.1 Improvements

1.1.1 Maps – Condition (Grains)

Improvement made to the **"Condition"** map. As of this version, in the Grain Vertical environments, when selecting **Operation** and generating **Status** map, the new **"Stop Reason"** filter will be displayed, which will allow to filter only by the **Stops** the user wants to view on the map.

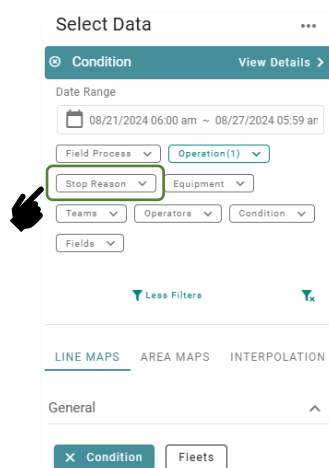

Image 01 – New "Stop Reason" filter

Image 02 – Displaying list of Stop Reasons in "Stop Reason" filter
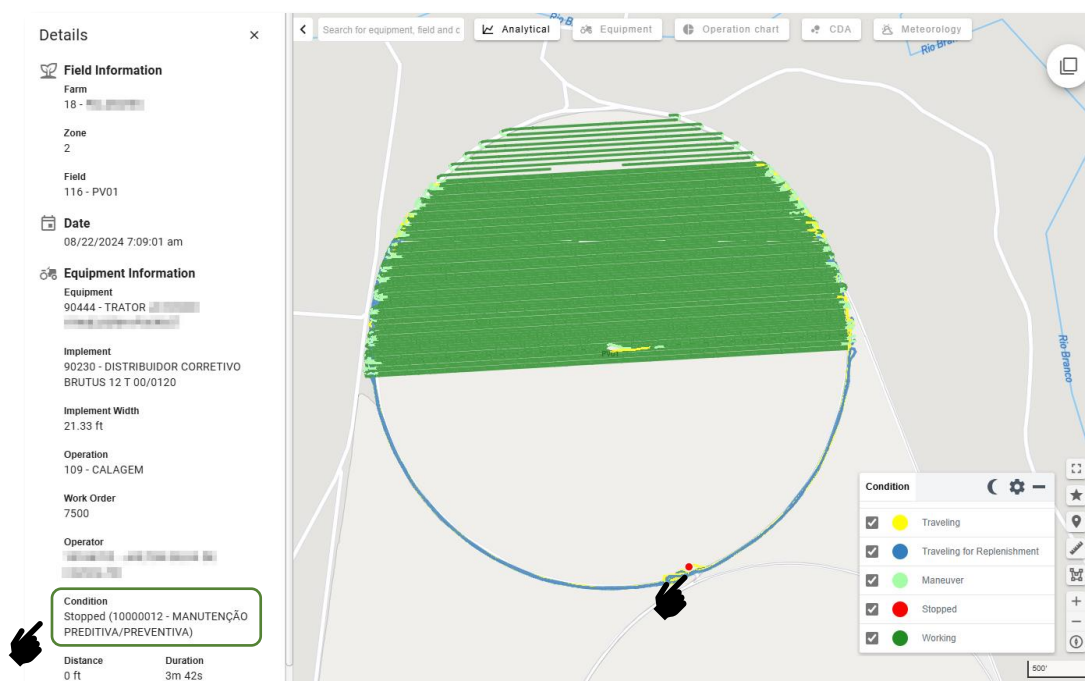

Image 03 – Selecting a Stop Reason

Image 04 – Stop Reason in Details and display of Stop points on the map

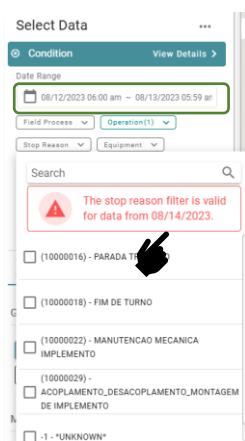

Image 05 – Message informing that the "Stop Reason" filter is valid for data from 08/14/2023

💬 Go to Top Menu > Maps > Line > Condition > Stop Reason Filter

ℹ️ Available for Grain Vertical Environments. Applied on 08/23/2024.

1.1.2 Maps and Integration – *reCAPTCHA*

Improvement made to the "Export data" functionality of the Analytical Map and to the "Integration" tool. As of this version, the "reCAPTCHA" validation tool is no longer displayed after validation has been performed and the file download has started. In other words, the "reCAPTCHA" tool is no longer displayed while the file is being generated and will only be displayed again when the user selects to perform a new download.

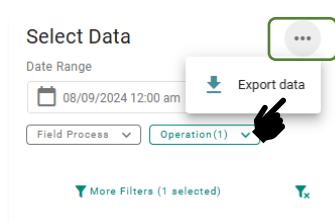

Image 06 – Shortcut button for the "Export data" functionality

Image 07 – Exporting the Analytical Map displaying the "reCAPTCHA" tool before starting the file download
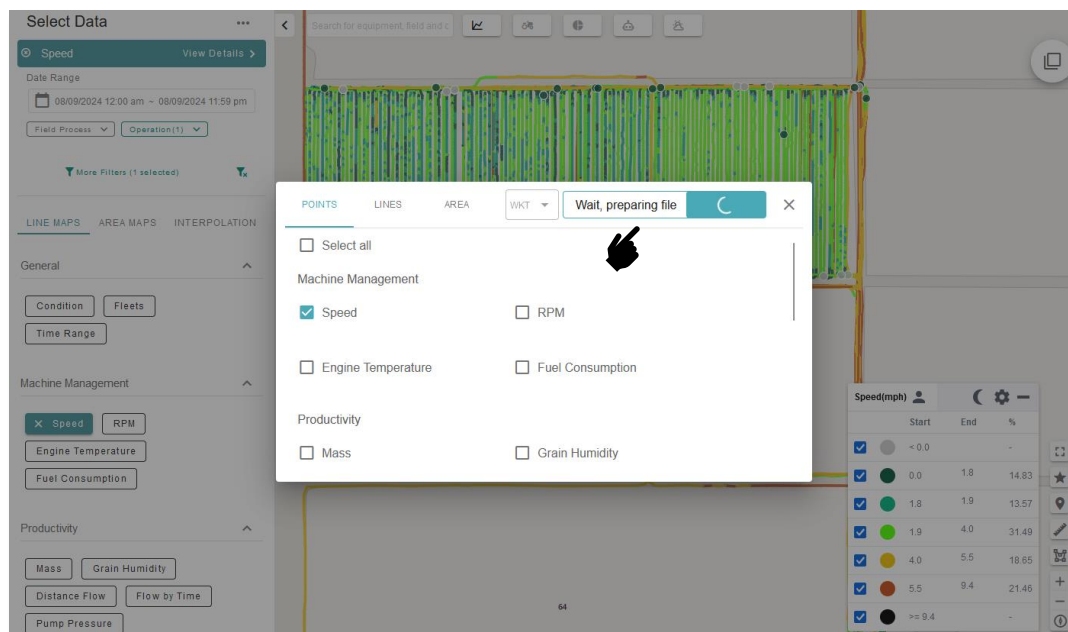

Image 08 – Analytical Map Export does not display "reCAPTCHA" tool during file download

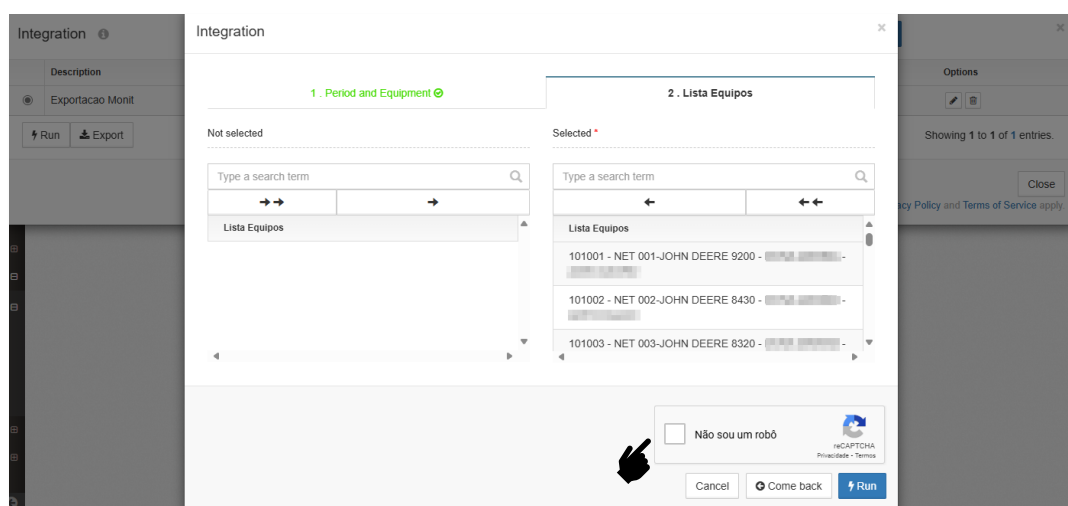

Image 09 – Integration tool displaying "reCAPTCHA" before generating the file

Image 10 – Integration Tool does not display "reCAPTCHA" during file generation

💬 Go to Top menu > Maps > Operation > Export data and in Main menu > Tools > Integration > Integration

1.1.3 PBI Reports – Checklist

Improvements made to the PBI "Checklist" Report, for the Sugarcane, Grains and Perennials Verticals. As of this version, in the "History" tab, new logic was implemented for the data displayed in the **Elapsed Time (h)** column, in which the time difference between the **Date/Time** and **Posterior Checklist** columns is used to calculate the value (previously, the Previous Checklist was used).

Image 11 – "Elapsed Time (h)" column of the "Checklist Report History" tab

💬 Go to Main menu > Reports > PBI > Checklist > History tab > Elapsed time (h)

ℹ️ Available for the Sugarcane, Grains and Perennials Vertical Environments that have the "Checklist" solution active.

1.2 Bugs

1.2.1 Maps – Legend

Adjustment made to the **Analytical Map**, for maps that have the option to change the unit of measurement in the **Legend**, so when creating a profile, to allow values to be inserted in the legend as typed in the "new value" field.

💬 Go to Top menu > Maps > Legend > Change unit of measurement > Profile > Create new > add value

1.2.2 Maps – Meteorology

Adjustment made to "Weather Maps by Interpolation" to load data correctly on the map.

💬 Go to Top menu > Maps > Top map menu > Meteorology > Weather Maps > Interpolation

ℹ️ Available for Environments that have the "Climate" solution active.

1.2.3 Monitoring – Trail

Adjustment made to the "Trail – Timeline" functionality of Monitoring, to load data when moving to the next page of the timeline. The adjustment includes the "Show status in trail" and "Show alarm in trail" views.

💬 Go to Top menu > Monitoring > Equipment > Equipment pop-up > Trail > Trail – Timeline

1.2.4 Maps/Monitoring – Options

Adjustment made to the "Options" functionality of the Map and Monitoring, to display the description of the fields according to the language selected in SGPA3.

💬 Go to Top menu > Map/Monitoring > Top right corner > Options button
