Changelog

SGPA3
Automated Process Management System

Some applications mentioned in this report may not be available in the feature pack installed on your SGPA 3.0

Thank you for being a SGPA 3.0 user!
Our system was updated in order to fix bugs, improve performance
and add new features to bring a better user experience and contribute to a
better quality and efficient management.

Summary

1. SGPA3

1.1 Improvements

1.1.1 Analytic Map – Coordinates

Implementation of the coordinates tool in order that it is possible to obtain the location (Latitude and Longitude) when clicking on the map.

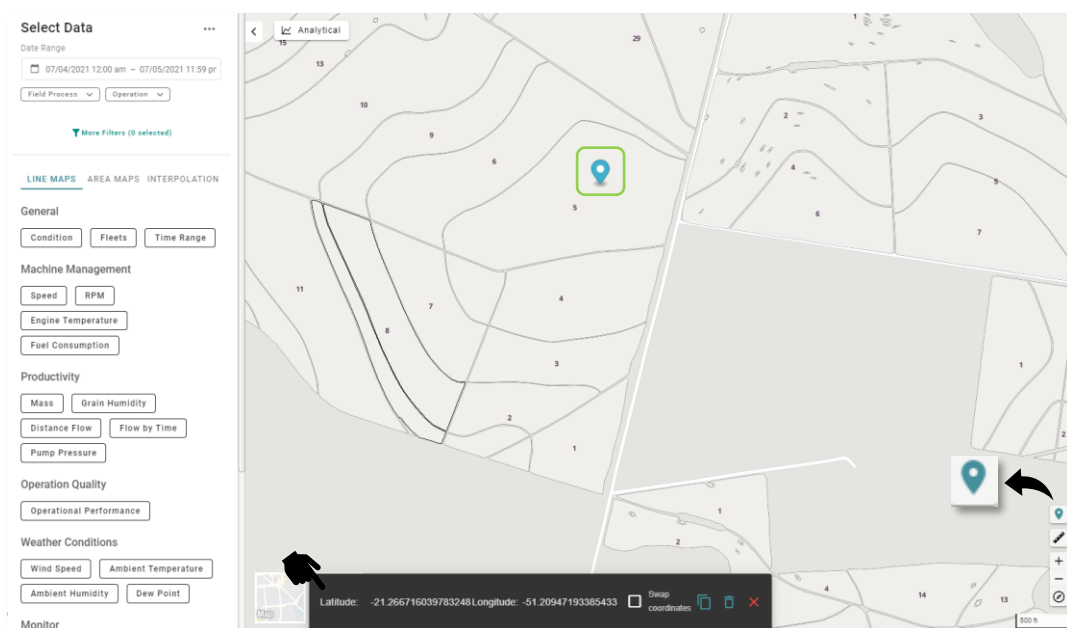

Figure 01 – Analytic Map

ⓘ *Access on upper shortcuts Menu > Maps*

1.1.2 Analytic Map – Export Data

Implementation of the "Lines" option to complement the available export options. From this version, it will be possible to export the geometry data formats: WKT, WKB.

ℹ *Access on upper shortcuts Menu > Maps > Export Data*

1.2 *Bugs*

1.2.1 *Monitoring – Pop-up*

Adjustment performed in the field "Operation Duration" in the monitoring pop-up and in the information module in order that the field content is displayed according to the default language of the environment.

ℹ *Access on upper shortcuts Menu > Meteorology > Pop-up and upper shorcuts Menu > Information*

1.2.2 *Records – Processing Settings*

Adjustment performed in the track reprocessing routine in order that it is possible to reprocess a period longer than two days.

💬 *Screen restricted to the IT support for processing configuration.*

ℹ *Access on Main Menu > Records > Settings > Processing Configurations*

1.2.3 *Analytic Map*

Correction applied to show the stop points on the map.

Adjustments performed in order that the excerpt zoom is loaded in the maps of the Yield Monitor.

💬 *MR – Function enabled to the Clients/Environments of the Vertical Sugar Cane that have the Yield Monitor Module.*

ℹ️ *Access on upper Shortcuts Menu > Maps*
