Changelog

SGPA3
Automated Process Management System

Some applications mentioned in this report may not be available in the feature pack installed on your SGPA 3.0

Thank you for being a SGPA 3.0 user!
Our system was updated in order to fix bugs, improve performance
and add new features to bring a better user experience and contribute to a
better quality and efficient management.

Summary

Av. Brasília, 2.121 – Edif. New York Tower
Jardim Nova York - Araçatuba/SP

1. SGPA3

1.1 Improvements

1.1.1 Tools – Operator File

Improvement applied to the informative message displayed when an error occurs when performing the integration of the of the Operator's File. From this version, the generic message "Fatal Error, contact support" and the error code with a brief explanation will be displayed.

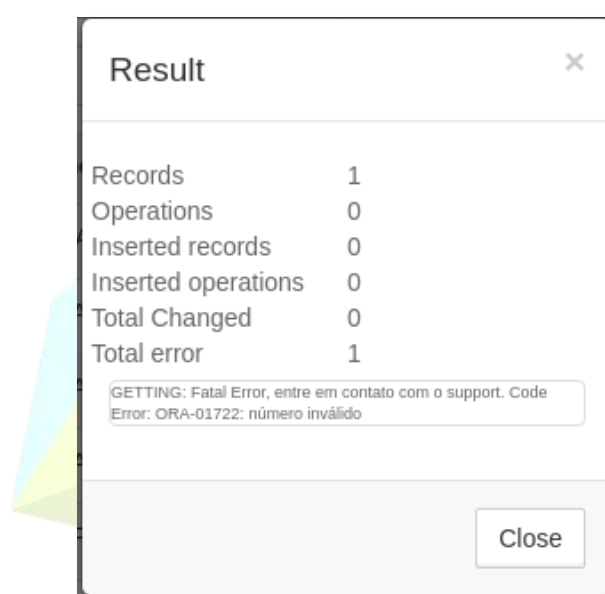

Figure 01 – Operator File

ℹ️ *Access on Main Menu > Tools > Operator File*

1.1.2 Report Generator – Supply Report

Improvement applied in the Supply – Supply report that includes the type of equipment Convoy to display the type of supply in the fields of the "Type of Supply" column that did not show this data.

💬 *Function enabled to the Clients/Environments in the Sugar Cane Vertical.*
ℹ️ *Access on Main Menu > Reports > Report Generator > Supply > Headquarter/Branch/Equipment/Date – Supply (RVA001)*

1.2 *Bugs*

1.2.1 *Modules – Realtime status*

Correction applied in the Equipment tab without the localization of the Realtime status screen in order that the name of the operator is shown in the "Operator" column and in order that in all the available export formats the "Fleet Description" column shows the data according to what is displayed on the screen.

ℹ️ *Access on Main Menu > Modules > Realtime status*

1.2.2 *Records – Equipment*

Correction applied in order that when registering a equipment to the displayed date in the "Edition History" is the date that was configured in the "Date and Time" field of the record.

ℹ️ *Access on Main Menu > Records > Equipment > Equipment*

1.2.3 *Records– Equipment Model*

Correction applied in the record screen "Equipment Model" in order that when creating or editing a model it is possible to save.

ℹ️ *Access on Main Menu > Records > Equipment > Equipment Model*

1.2.4 *Records – Pluviometer Parameter*

Adjustment applied in order that Davis type rain sensors are displayed in the "Rain Sensor" column of the Pluviometer Parameter screen.

💬 *Function enabled to the Clients/Environments that have the type(s) of equipment, Pluviometer and/or Weather Station*

ℹ️ *Access on Main Menu > Records > Equipment > Pluviometer Parameter*

1.2.5   *Weather Dashboard*

Correction applied in the Weather dashboard to display the date of the last update of the Weather Stations and Pluviometers.

Adjustment applied to date formatting in the weather data export file.

💬*Function enabled to the clients that have Weather Stations and/or Pluviometers.*

ℹ️ *Access on Main Menu > Modules > Panel > Weather*

1.2.6   *Monitoring – Send message*

Adjustment made in the informative message when an error occurs when trying to send a Online Message by the monitoring and adding the message "Sent Successfully" when the sending is accomplished.

ℹ️ *Access on upper shortcuts Menu > Monitoring > Pop-up > Send Message*
