Changelog

SGPA3
Automated Process Management System
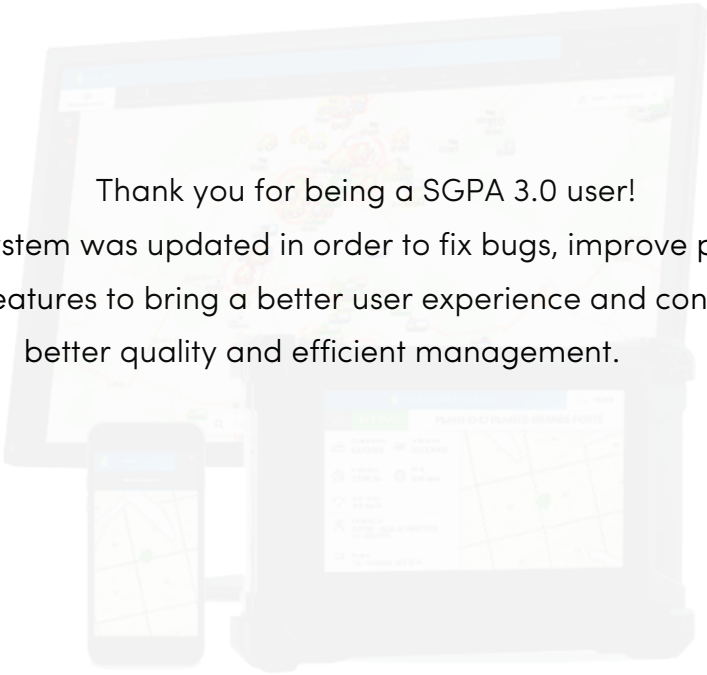

Some applications mentioned in this report may not be available in the feature pack installed in your SGPA 3.0

Thank you for being a SGPA 3.0 user!

Our system was updated in order to fix bugs, improve performance and add new features to bring a better user experience and contribute to a better quality and efficient management.

Summary

Av. Brasília, 2.121 – Edif. New York Tower
Jardim Nova York – Araçatuba/SP

1. SGPA

1.1   Improvements

1.1.1   Monitoring - Trail

The trail received some updates and adjustments. This version has all of the already existing functionalities from the previous version and was added the option to view **multiple trails**, allowing to view the trail of more than one equipment at the same time.

A – *Timeline Options* are available on the lower left corner of the map.

B – **Chart/Table, Expand and Close** they are available on lower right corner of the map.

The Timeline is shown when clicking on the option "Expand".

C – **Select period and equipment** is available on the center of the map.

This version corrects the overlaying that occurred between the *Timeline* and the Measure Distance and Coordinates features.
