Changelog

SGPA3
Automated Process Management System
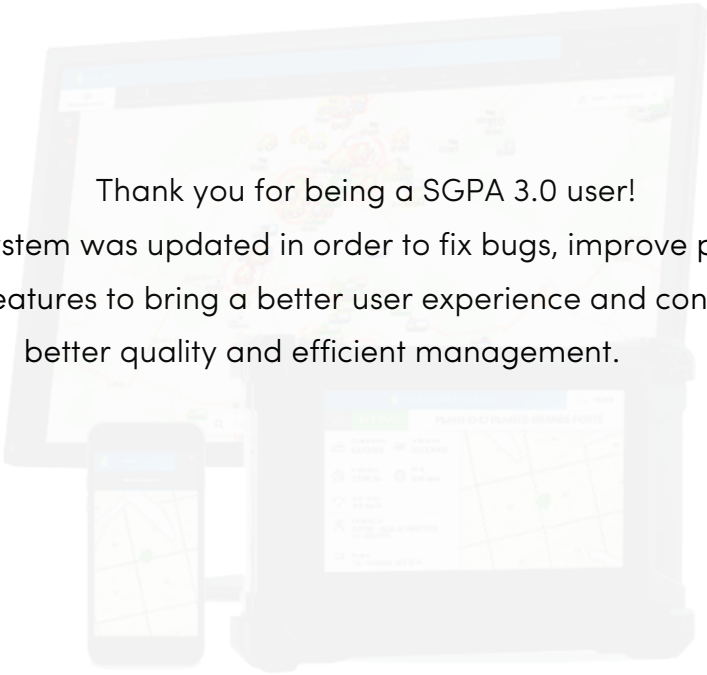

Some applications mentioned in this report may not be available in the feature pack installed in your SGPA 3.0

+55 (18) 3622-2270

Av. Brasília, 2.121 – Edif. New York Tower
Jardim Nova York – Araçatuba/SP

Thank you for being a SGPA 3.0 user!
Our system was updated in order to fix bugs, improve performance
and add new features to bring a better user experience and contribute to a
better quality and efficient management.

Sumário

1. SGPA

1.1 Improvements

1.1.1 Records – Equipment Model and Maintenance – Onboard Configuration

Inclusion of the "Volkswagen" manufacturer in the record screens of Equipment Model and Onboard Configuration to serve the Hauling Tractor type equipment.

ⓘ Access on main Menu > Records > Equipments > Equipment Model

1.2 Bugs

1.2.1 Monitoring – Advanced Search

Adjustment applied in the Advanced Search of the Monitoring in order to filter the data correctly when configuring a search by "Description of Productive Operation Typed on Board".

ⓘ Access on upper shortcuts Menu > Monitoring > Advanced Search

1.2.2 Records – Operation

Correction made in the operation records of Operation in order to present the descriptions correctly.

ⓘ Access on main Menu > Records > Operation > Operation

2. Monitoring

The Monitoring received some updates and adjustments related to the "layout". This version has all the already existent features from the previous version, but with an interface more modern and intuitive. The main change is

related to the integration with the Analytic Map and the update in real time (without the need to wait for the update via the timer).

📬 Initially, for the purpose of homologation and application of eventual corrections, this version was released for some Clients/Environments. After this phase, the other Clients/Evironments will be informed and will receive this update along with a training to present the main changes in relation to the previous version.

Below are the latest improvements and corrections applied to the Clients/Environments that are using the aforementioned version.

2.1 Improvements

2.1.1 Icons

Some improvements were applied in the icons, they are:
