Changelog

SGPA3

Automated Process Management System

Changelog Version 2023/194
Period: 06/19/2023 to 06/23/2023
Revision 00
Date: 07/03/2023

Some applications mentioned in this report may not be available in the feature pack in your SGPA 3.0

Thank you for being a SGPA 3.0 user!

We update our system in order to fix bugs, improve performance and add new features to bring a better user experience and contribute to management with greater quality and efficiency.
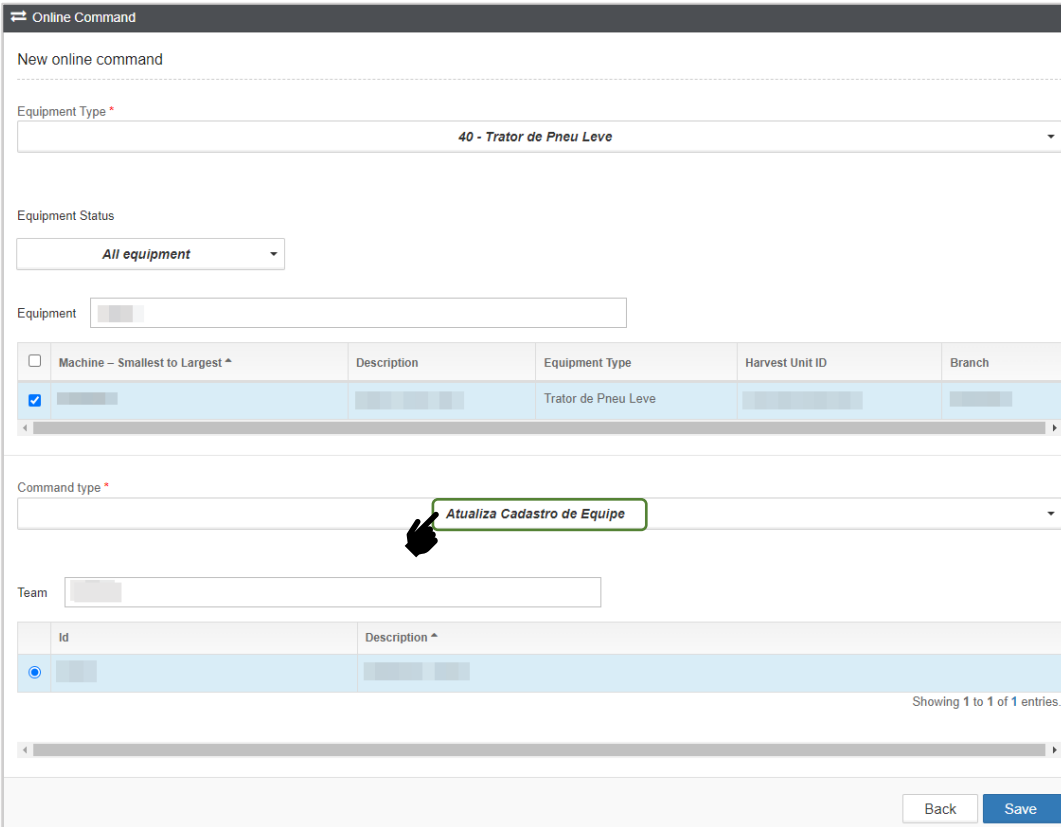

Table of Contents
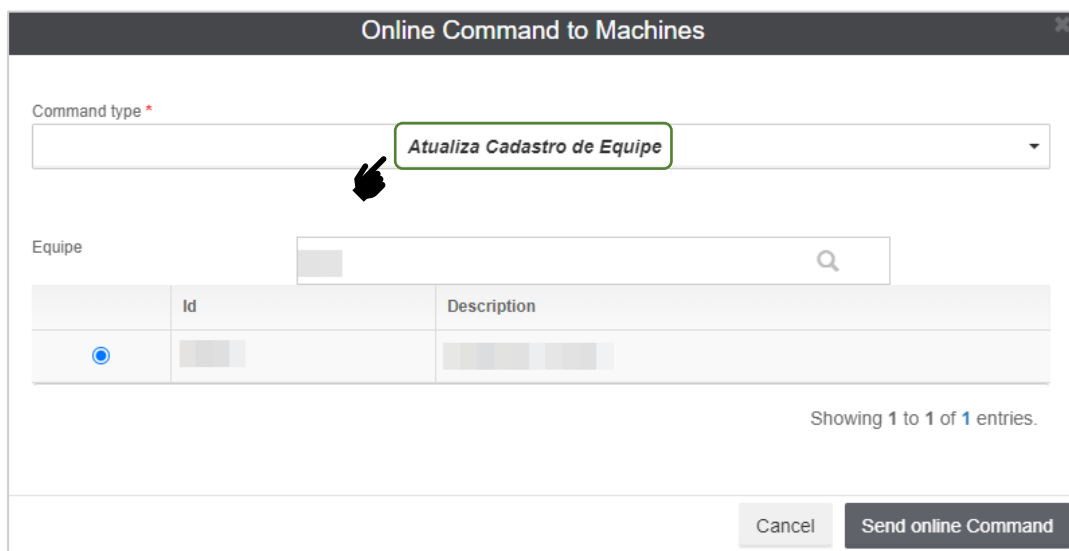

1. SGPA3

1.1 Improvements

1.1.1 Online Command – Update Team Record

Improvement made on the "Online Command" screen to include a new type of command, the "Update Team Record". This command will be available for all equipment types that use team notation.

Image 01 – Online Command Module – Update Team Record

Image 02 – Online Command Update Team Record in Monitoring

💬 Go to Main Menu > Modules > Online Command > Equipment Type > Equipment > Command Type > Update Team Record > Team and/or go to Top Menu > Monitoring > Equipment > Pop-up > Online Command button > Command Type > Update Team Record > Team

1.1.2 Maps – CDA (Digital Certificate of Cotton)

Improvement implemented in the CDA (Digital Certificate of Cotton) with the inclusion of two new parameters: "Curbstone" and "Anomalies". The "Curbstone" parameter has the classifications **Curbstone** (when the roll is close to the edge of the field) and **Internal** (when the roll is far from the edge of the field), and the parameter "Anomalies" has the classifications **With abnormality** and **Without abnormality** (data pointed out and sent by the application "CDA–App").
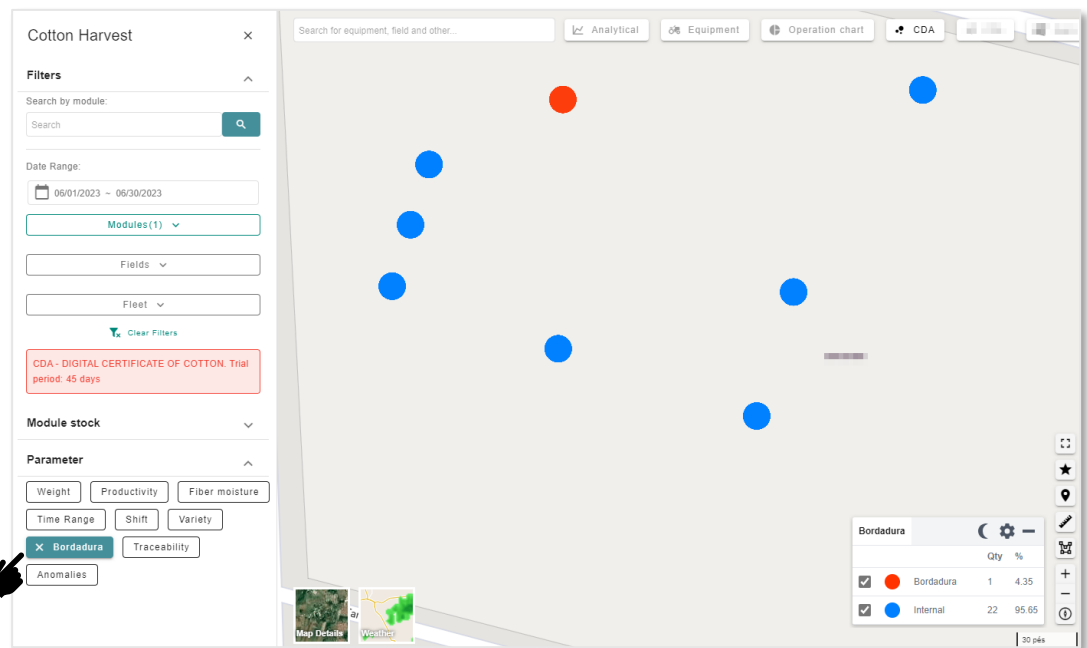

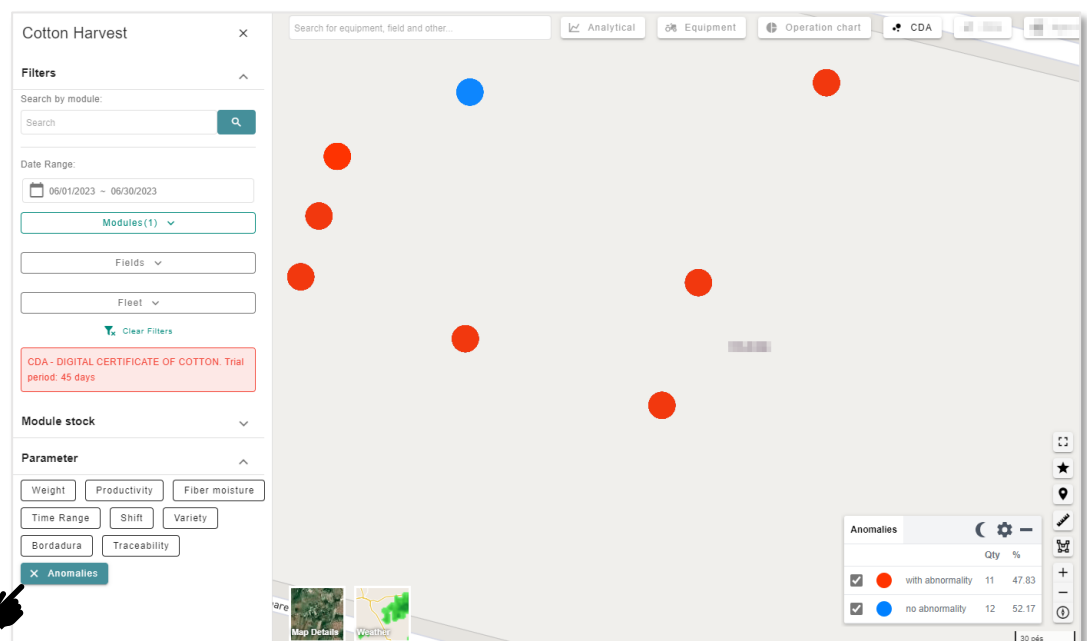

Image 03 – Curbstone Parameter

Image 04 – Anomalies Parameter

💬 Go to Top Menu > Maps > CDA > Parameters > Curbstone and Anomalies

ℹ️ Available for Environments of the Grain vertical that have the CDA (Digital Certificate of Cotton) solution enabled and with an active contract for the 2023 Harvest.

1.1.3 Record – User Group and Equipment Profile

Some matters added related to the Equipment Profile to alert the user. As of this version, a validation was implemented where it will be necessary to insert an Equipment Profile corresponding to the Branch inserted in the User Group, that is, when there is no Equipment Profile linked to the Branch, it will not be possible to save the record.

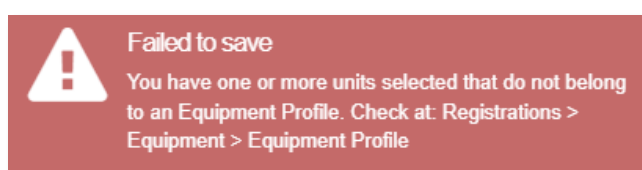

Failed to save
You have one or more units selected that do not belong to an Equipment Profile. Check at: Registrations > Equipment > Equipment Profile

Image 05 – Informational Message

💬 Go to Main Menu > Records > Equipment > Equipment Profile and Main Menu > Records > Administration > User Group

1.2 Bugs

1.2.1 CDG Panel – Field Contingency

Correction made on the "Field Contingency" screen to update the data when changing pages of the "Contingencies List".

💬 Go to Top Menu > CDG Panel > Contingency Field > List of Contingencies

ℹ️ Available for Environments of the Grain vertical that have the CDG (Digital Grain Certificate) solution enabled.

1.2.2 CDG Panel – Entries' History

Adjustment applied to the "Entries' History" PDF to be possible to view the Report details on screens with lower resolutions. In addition, the "Loading Detail" was adjusted to display description of the fields "HARVESTER" and "UNIT".

💬 Go to Top Menu > CDG Panel > Entries History

ℹ Available for Environments of the Grain vertical that have the CDG (Digital Grain Certificate) solution enabled.
